October 16, 2020

Good morning BCS Family,

It has been brought to my attention a rumor is circulating that we have a positive COVID-19 case within the school. As of this communication, we do **not** have any confirmed cases of COVID-19 at BCS. We continue to have excellent communication with the Camden County Department of Health. If there were a confirmed case of COVID-19, the Camden County Department of Health would notify me directly. At that time, I would send the appropriate notifications following the guidelines set forth by the Department of Health and the reopening plan.

Very truly yours,

Joseph Campisi, Ph.D.
Superintendent
