**Berlin Borough School District Strategic Planning**

The Berlin Borough Board of Education will be developing our school district's next **five year Strategic Plan**. **With pandemic health and safety considerations in mind, we will be using a robust virtual strategic planning process facilitated by New Jersey School Boards Association.** A critical aspect of the strategic planning process is the involvement of a cross-section of district stakeholders to share their inputs and help develop the Goals & Objectives, which will be the foundation of the five-year Strategic Plan.

To ensure that district stakeholders play a major role in our strategic planning process, the Board is establishing a **Strategic Plan Stakeholder Committee**, which will work with our New Jersey School Boards Association facilitators. The committee will focus on the strengths of the district, the challenges that we face, the ideas and hopes we have for our students and ways in which we can tackle the challenges while enhancing our students' college and career readiness.

On behalf of the Berlin Borough Board of Education, the Superintendent is requesting **50 volunteers** (district staff, parents, community members, students) to become members of the district's Strategic Plan Stakeholder Committee.

If you would like to volunteer to be a part of this exciting process **you must commit to participate in all three meetings.**
